Campus Health Service  
The University of Arizona  
PO Box 210095  
Tucson, AZ 85721-0095

Dear Dr. McDermott and Staff,

The University of Arizona Department of Intercollegiate Athletics would like to join in the well wishes from around campus to Campus Health on your 90<sup>th</sup>+ anniversary of providing quality care to the students and staff at The University of Arizona.

Campus Health provides many services to our student-athletes, including but not limited to the services of sports medicine physicians, nutritional services, counseling and psychological services, and health promotion work with our C.A.T.S. Life Skills program. Without your expertise and support, we could not provide these much-needed services for our student-athletes.

The services provided by Campus Health staff have truly evolved through the years into a comprehensive and collaborative effort. Your commitment to the health, wellness, and safety of our campus is remarkable and this recognition well-deserved.

We wish you all the best for your next 90 years!

Best regards,

Jim Livengood  
Director of Athletics
